TUESDAY MORNING, JUNE 25, 1867. SMOTHERED IN ROSES.

Yes, charity, I know, may hide A multitude of sins; But there's a proverb to decide
Where charity begins.
Should mine in future contemplate A journey anywhere,

Twill be a ball—a play—a fate—

And not a fancy fair.

The girls are all so very bold-The men so very rash—
So many trifics must be sold,
And all for ready cash.
You'll find when once you come to count
The guineas here and here,
It costs a pretty large amount
To see a fancy fair.

Three-quarters of the things they sell Are not a bit of good—
(One can't refuse, though very well, And wouldn't if they could.)
They have such voices and such curis, And such a winning air—
About a dozen pretty giris
May work a fancy fair.

They hunt a fellow round and round,
They track him up and down,
They sell him portraits at a pound,
And roses at a grown;
Scent, purses, pocket books and ringsPomatum for the hair—
And fifty other little things
That stock a fancy fair.

I'm not particularly shy,
As everybody knows,
And yet I am obliged to buy
Whatever they propose.
I've been so often overcome
That now I only dare To take a very moders To any fancy fair.]

They little know or little seel
What injuries they do;
A wound upon the pures may heal,
But hearts are wounded too.
This damage done by tips and eyes
Is more than I can bear;
Se charity, take any guise
Except a fancy fair.

The business continues very light, and transactions as bimited that reliable quotations cannot be given ad we omit them. The sales were confined to 25 bales, my 16 at 23 %c. and 9 at 24%c.

Mobile Market.

Nobile Market.

Corrols—We have no new feature to note in the market to day. The inquiry continues his and confined to a few, and, as has been the case for some time past, the sirringent ideas of factors and the light stock offering has restricted the sales considerably below what they would have been had they harmonized. Four buyers embred the list to-day, taking between them too hales, on a basis of 24c for Liverpool Middling, with all grades taken in. The better grades, however, are searce, and on their merits command fully %c above as telegrams from Liverpool report no change

indence in country all over the country is now considerably shaken in concations of a damaging, if not disastrous stadppi, and in the present almost death-trade, the prospects for the future are with considerable anxiety. The river, again canvasced with considerable suriety. The river, although falling from St. Louis down, is only four or five fast below late high water mark at this point, and it is reported that the June rise in the Missouri is almost unprecedented. The flood in the Arkansas river was greater than any since 1944, and has caused immense destruction, but it is subsiding rapidly. Cotton has stiffened somewhat since our last, but is inactive in consect comewhat since our last, but is inactive in consect somewhat alone or last, but is inactive in consect menore of the high views of holders."

NEW OBLEANS, June 19.—Corror.—The demand today has been restricted throughout, being confined printipally to buyers who had previously unexecuted orders
to fill up, the completion of which would not admit of
postporement. The supply continued light, several factors returning to uncover their tables, while those who exposed their Ests generally exacted full prices, some of
them, in fact, obtaining figures a fraction in advance of
resterday's risks. Under these circumstances the sales
were limited, amounting in the aggregate to barely 1100
hales, taken by seven brokers at prices indicating additional dramness, but not a quotation indicating additional dramness, but not a quotation with a strong upward
tendency. With the above remarks we repeat as follows:
Ordinary Static, Good Ordinary 20, Low Middling 24%

more liberal had not the so creity of the latter descrip ion
prevented at veral from operating.

It is a most effectual tonic and agreeable stimulan suited to all conditions of life.

The reports that it relies upon mineral substances fo its active properties, are wholly false. For the sails faction of the public, and that patients may consult their physicians, we append a list of its components.

Calibrata Bark.—Celebrated for over two hundred years in the treatment of Fever and Ague, Dyseppels, Weakness, etc. It was introduced into Europe by the Countess, wife of the Vicercy of Peru, in 1640, and afterwards sold by the Jesuits for the enormous price of its cose weight in silver, under the name of Jesuit's Powders, and was finally made public by Louis XVI, King of France. Humboldt makes especial reference to its febrings qualities during his South American travels. Cascanilla Bank—For diarrhoss, colio and diseases of the stomach and bowels.

THE WATER OF THIS SPRING IS BELIEVED TO be unequalled by that of any other in the far-famed valley of Saratoga. Its virtues are such as have secured the high encomiums of all who have used it, possessing, as it does, in an eminent degree, cathartic, diuretic alterative and tonic qualities. it the high encomiums of all who have used it, possessing, as it does, in an eminent degree, cathartic, diuretic, alterative and toule qualities.

Philadelphia, formerly of Charleston S. C.

I have been for a year or more past in the habit of taking the water of the "Excelsior" Spring of Saratoga. Accustomed during the great portion of my invalid life to use the different waters of the several fountains which boil up along that remarkable valley, dependent, indeed, upon them for much of the comfort I enjoy, I am satisfied that the Excelsior Water is as well adapted as any other among them, if not more so, to the purposes for which they are generally employed. It is very agreeable, strongly impregnated with the carbonic acid, lively and sparkling. * * I can heartily and conscientiously recommend it to all who need a gentle cathartic and diuretic.

EUROPEAN TESTIMONIALS.

Received during the month of August, 1866. Hecetved during the month of August, 1866.

Lordon, July 25, 1867.

Messes, Chickening & Bors—Gents: I have much pleasure in enclosing a document signed by the first composers, musicians and professors in Europe. I held your Pianos in such high estimation (vide my certificate) that I felt it my duty to take one of them with me to Europe, to ascertain the opinion of my professional hrethren. The enclosed certificate will prove how unanimous they have been on the subject. I beg to forward, at the same time, a letter I received from my friend, Mr. Collard, which I am sure must be gratifying to you. ing to you.

I have the honor to be, gentlemen, yours very truly,
JAMES M. WEHLL.

James M. Wehll, Esq.:

Mx Draw Sin: I have great pleasure in saking youto convey to Messrs. Chickering the expression of my highest approval of their instrument. It is, I consider, not merely the best instrument of American manufacture that I have tried, but one of the firest Grand Planctortes that has ever come under my observation; and the Messrs. Chickering may well be proud of having turned out from their manufactory an instrument which, for touch, quality, power and workmanship, it would be very difficult to surpass in any part of the wide world.

Dear sir, very sincerely yours. Dear sir, very sincerely yours, OHAS, D. COLLABD,

who will avail themselves of its remedial power may be beneatted.

It only requires a fair trial to confirm its invaluable agency in diffusing through each channel of the human organization a restored vitailty. It invigorates and embuss the Lungs with healthful elasticity; restores warmth which is their essential element; rouses the sluggish wes sels into activity; heals the affected lobes; purifies and enriches the blood; regulates the circulation; induces free and easy respiration, and expels, through its administration, each and every concomitant disorder present in the malady recognized as Consumption, and hitherto deemed hopeless and incurable.

This compound is perfectly safe, possessing neither narcotte nor emetic properties, which unfortunately are always employed as essentials in every preparation for Cough or Lung affection—a mistake which too often in its irritating and debilitating consequences, only conduces to much general derangement of the system, destroying appetite and creating an injurious nervous excitement, augmenting suffering with frequent fatal results.

Under the influence of this approved and invaluable James M. Wehli, Esq.:

My Drar Sm: As you are going back to the United gtates, I must beg you to remember me kindly to the Messry. Chickering. GENTS: I have just been invited by Messers. Collard to try a Grand Plano-forte manufactured by you, and I have no hesitation in endorsing the opinion of my old friend, Mr. O. D. Collard, vis: That it is the finest instrument I ever played on.

Believe me, gentlemen, most faithfully yours.

Having played upon a Piano-forte made by Mesers.
Chickering & Sons, of Boston and New York, I have much pleasure in testifying to its general excellence.

Among the chief points of excellence of the Chickering Pianos, of which speak the renowned artists in their congratulatory testimonials to the Mesers. Chickering, are the greatest possible depth, richness and volume of tone, combined with a rare brilliancy, clearness and tone, combined with a rare brilliancy, clearness and perfect evenness throughout the entire scale; and, above all, a surprising duration of sound, the pure and sympathetic quality of which never changes under the most delicate or powerful touch.

During the past forty-three years this firm has manuactured

In the construction of which they have introduced every known and valuable improvement. They have invaria-bly been selected and used by all of the world's ac-troveledged great artists who have visited this country professionally, both for private and public use.

I consider Chickering & Sons' Pianos, beyond con parison, the best I have ever seen in America.

I consider Chickering & Sons' Planos superior to any in the world.

They are unrivalled for their singing qualities and for the harmonious roundness of their tone. There is a perfect homogeneity throughout all the registers. The upper notes are remarkable for a clearness and purity which I do not find in any other instrument, while the base is distinguished for power without harshness, and for a magnificent sonority.

POZNANSKI.

During the past eight years I have constantly played apon the justly celebrated Erard Pianos; yours are the only instruments that I have found, either here or in Europe, to equal them in all their points of excellence.

It may be satisfactory to our patrons and friends warming the public at large to state that testimonials have been received from all the leading artists who have visited or are now residing in the United States, a few of whose names, besides those above, we append:
